# Shaped by passion, rooted in quality.

## ORIGINS OF SUCCESS

Certainly, any successful business venture can be illustrated as black and white, but the underlying colours are what grow a creative business. We recognize that legacy is crafted by our actions, perseverance, and the ability to add value to the market long-term. The maturing of this corporate character motivates our team and provides us with the foundation to offer quality products matched by exceptional customer service.

Owner, co-founder, and active team member Jordan Ward started with an interest in home renovation and property management. During the completion of a home build, Jordan was approached by a neighbour to quote him for his landscape project. Driven by new opportunities and a desire for growth, Jordan welcomed the request and swiftly pivoted into the landscape industry.

During a modest couple of years of purchasing landscape material, Jordan identified an opportunity to refine the landscape supply industry. The core initiatives focused on an advanced product line, accurate organization,

an upgrade to product presentation, exceptional levels of customer service, and a commitment to continued growth.

In 2021, we opened our Guelph location. Expanding amid a global pandemic comes with its own set of challenges. There's a fight for market share, the constant finesse required when procuring quality materials, building up and maintaining a unified team, working with the right suppliers, fostering partnerships, and creating new ones. With the operation of two locations and the development of all formal departments, Creative is now reaching the provincial market and beyond.

Strategy, respect, and perseverance are but a few of the characteristics required when operating a successful business. You must continually be moving with momentum, agility, and anticipation, putting one foot in front of the other without losing sight of what's ahead. Creative Landscape Depot is shaped by passion and rooted in quality and we're always ready to dive into new opportunities and venture into uncharted territory.

*You must  
be continually  
moving with  
momentum,  
agility, and  
anticipation.*

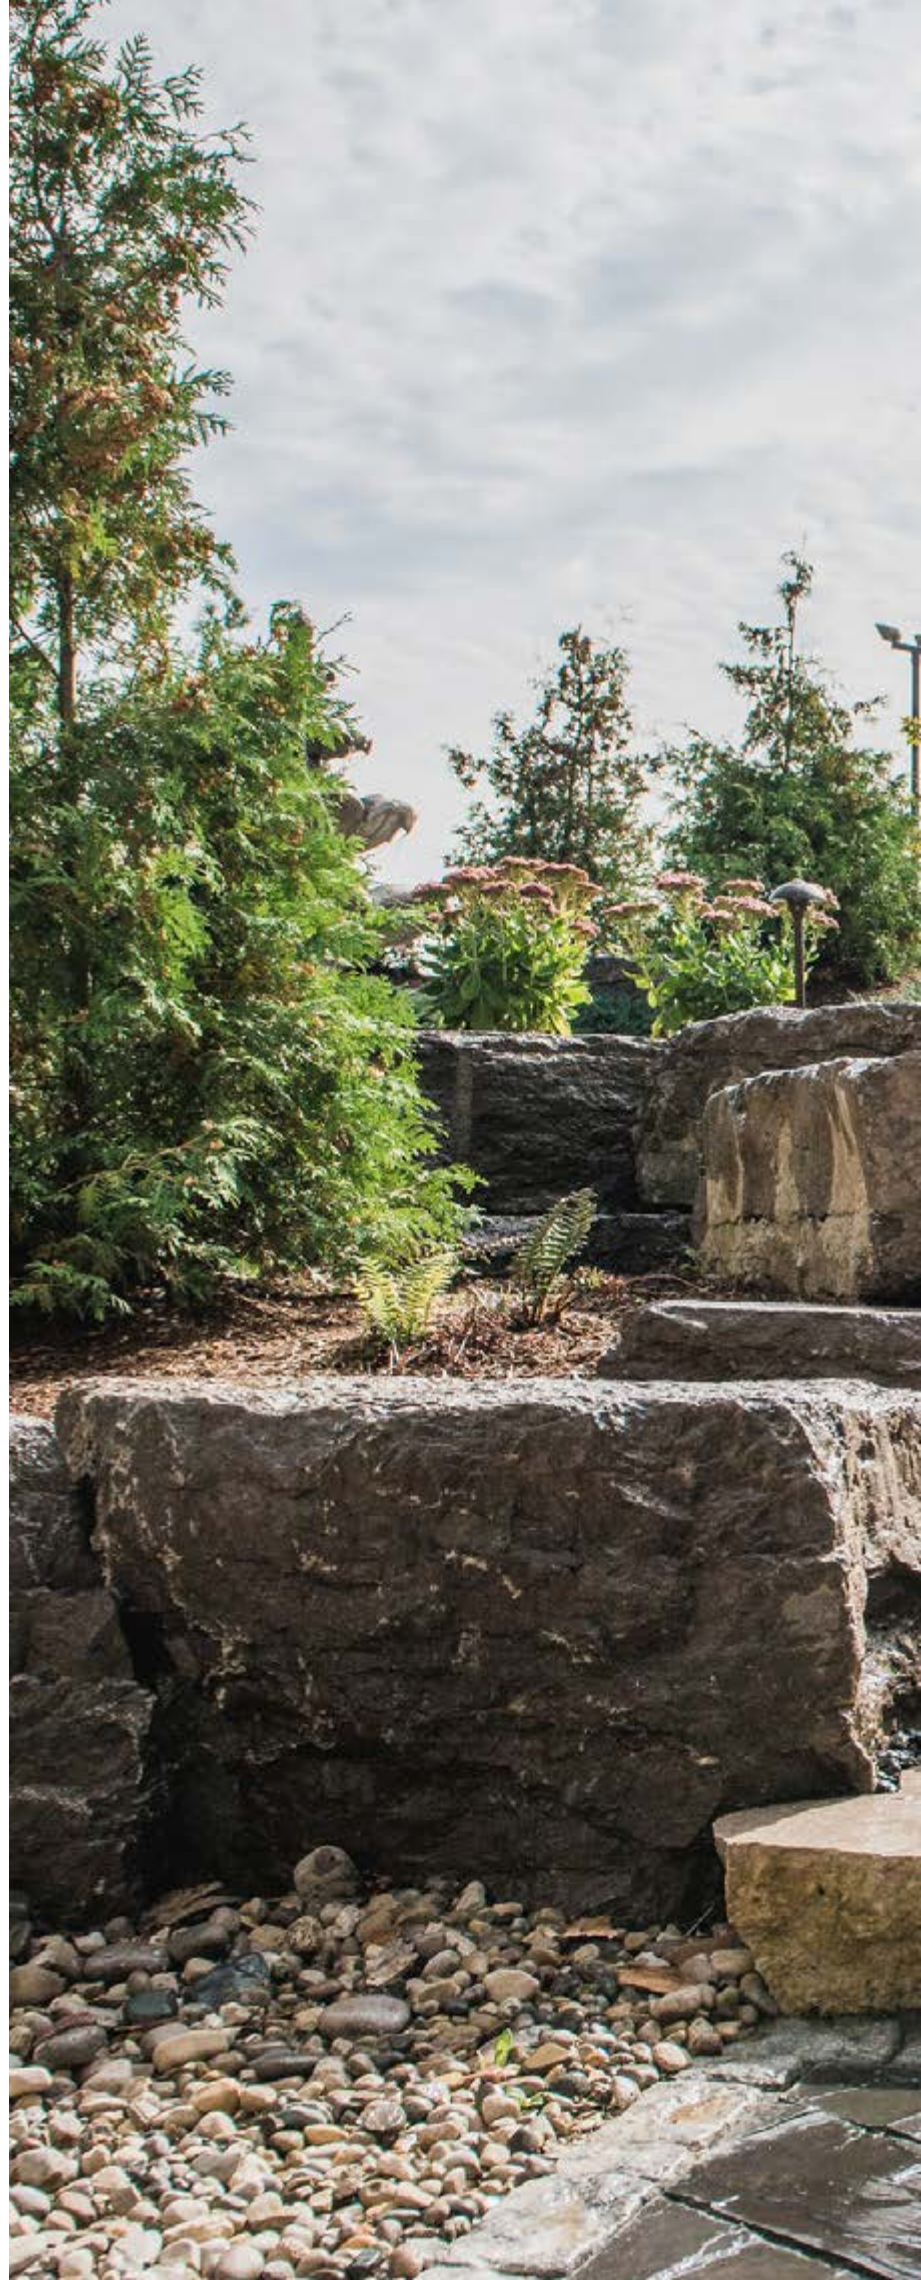

**—Jordan Ward,  
Owner and team member.**

# Origins

## NATURAL STONE

- 10 Armour Stone
- 15 Guillotined Armour Stone
- 16 Decorative Stone
- 19 Flagstone
- 20 Coursing, Wallstone, Drywall

Passion deeply rooted in the appreciation for natural stone and the unrivaled beauty it adds to any landscape are our humble beginnings. We understand and gladly navigate the challenges related to the variable processes in natural stone production and procurement. We aspire to provide the industry's finest natural stone collection, matched by leading levels of expertise and customer service.

# Armour Stone

Buff Armour

## Buff Armour Stone

---

Height 7–40 in  
Random lengths and depths

The stone is shaped by machines and cubical.

**Region**  
Ontario limestone

**Colour**  
Light brown / buff

Kawartha Armour, Random Cutbacks (see next page)

## Charcoal Armour Stone

---

Height 7–40 in  
Random lengths and depths

Available in smaller sizes movable by hand

**Region**  
Ontario limestone

**Colour**  
A mix of charcoal tones

## Guillotined Cubes

---

Height 10–16 in

The stone is shaped by machines and very cubical

**Region**  
Ontario limestone

**Colour**  
Available in various colours

Sawn Armour

## Sawn Armour Stone

---

Height 7 or 12 in  
Depth 12 in  
Length 32 or 40 in

**Region**  
Ontario limestone

**Colour**  
Charcoal

## Wiarion Armour Stone

---

Height 7–40 in  
Random lengths and depths

**Region**  
Ontario limestone

**Colour**  
A blend of gray tones, often with brown accents and veins throughout

Kawartha Armour, Random Cutbacks

## Kawartha Armour Stone

---

Height 7–40 in  
Random lengths and depths

**Region**  
Ontario limestone

**Colour**  
Blend of gray and brown tones

Flamed top steps

Random Treads

## Kawartha Light Armour Stone

---

Height 7–40 in  
Random lengths and depths

**Region**  
Ontario limestone

**Colour**  
A mix of light gray tones

## Kawartha Flamed Top Steps

---

Rise 7 in  
Depth 18 in  
Lengths 3–8 ft

## Kawartha Random Cutbacks

---

Rise 7 in  
Depth 18–36 in  
Lengths 3–8 ft

## Guillotined Armour Stone

Guillotined

### Guillotined Armour Stone

---

Height 9–24 in  
Depth 14–20 in  
Random lengths

#### Region

Ontario limestone

#### Colour

Blend of gray and brown tones

### Cubicle Guillotined Armour

---

Guillotined on all four sides

Height 9–24 in  
Depth 14–20 in  
Random lengths

#### Region

Ontario limestone

#### Colour

Blend of gray and brown tones

Guillotined

# Decorative Stone

## Basalt Columns

---

Cored and non-cored columns  
Cored and non cored bowls  
Polished and natural finishes available in all

## Granite Boulders

---

Crated, small movable-by-hand  
Larger sizes available

Random shapes / round by nature

### Region

Ontario granite

### Colour

Variety of gray, pink, red, blue, and green hues,  
black stones are often available

## Moss Rock

---

Crated, small movable-by-hand  
Larger sizes available  
Random shapes

### Region

Ontario limestone

### Colour

Blend of grays, black patches, beige,  
and green moss throughout

Basalt Columns

Moss Rock

# Flagstone

## Regular + Oversized

---

Height 1 / 1.25 / 1.5 / 2 in  
Random sizes  
(average of 4 - 5 units per layer per pallet)

Oversized Height 1–2 in / 2–3 in  
(generally skid size units or larger)

### Region

Ontario limestone

### Colour

Available in gray, brown, black

## Premium 2.25" Oversized

---

Height 2.25 in calibrated  
Random sizes  
(generally skid size units or larger)

### Region

Ontario limestone

### Colour

Eramosa gray colour tones with veins  
and often brown accents throughout

## Granite + Premium Oversized

---

Height 1–2 in  
Random sizes  
(average of 4–5 units per layer per pallet))

Oversized Height 2 in calibrated  
Random sizes for oversized  
(generally skid size units or larger)

### Region

Ontario limestone

### Colour

Blend of colours

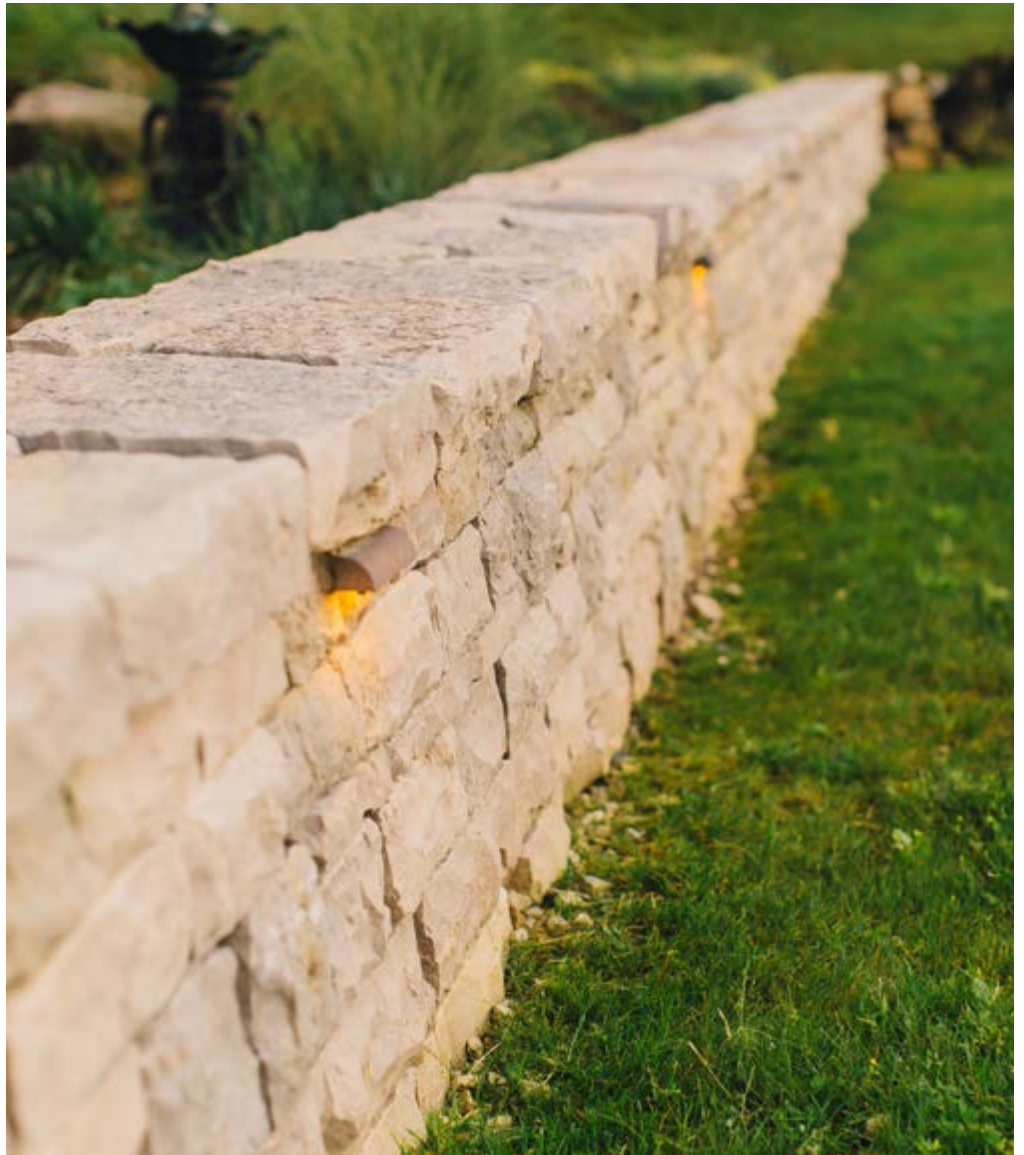

Granite Flagstone

Premium Oversized Flagstone

# Coursing Wallstone Drywall

Wiarthon Drystack

## Coursing

---

Coursing stone is sawn on the top and bottom to create a formal or linear pattern, and the different height increments available allow for multiple design options. Natural stone cladding is elegant, stately, and an investment in any home or commercial application, and the value lasts forever.

- 4" bed depth
- Modular or masonry heights available
- Sawn top and bottom

## Drywall/Rip Rap

---

Drywalls have been used for retaining and aesthetically appealing applications for centuries. The flexibility of these walls offers strength and longevity that brick and mortar designed walls may not. Building drywall requires lots of time and careful attention to detail. We are well connected to the finest Ontario rubble stones in the market and can source quality material to make the manual installation as easy as possible.

Eramosa Coursing

Wiarion Drywall / Drystack

Indiana Limestone Dimensional Wallstone

## Dimensional Wallstone

---

Dimensional Wallstone is sawn on the top and bottom and guillotined to an 8" depth. The name 'dimensional' refers to the calibrated nominal heights that are available, which allow for a modular building pattern with or without using mortar. Dimensional walls are often built in a dry-stack manner, meaning stacked without mortar, offering a hairline joint and contemporary outcome.

- 8" bed depth
- 2" / 4" / 6" / 8" calibrated heights
- Random Lengths
- Sawn top and bottom

## Wallstone

---

Wallstone is a natural bed ledgerrock, split from natural layer slabs of stone. The top and bottom of the stone are typically uneven, creating an informal traditional look. These products range in size and can have a variation in all dimensions, allowing the builder to create a modular and rubble-laying pattern. The irregular edges offer an aged mortar joint finish and offer plenty of character and opportunity for unique designs.

- 4" and 8" bed depth
- 2–8" tall x random lengths
- Ontario Limestone
- Gray and brown blend

# Creative Collections

## CREATIVE COLLECTIONS

- 25 Architectural
- 47 Designer
- 67 Engineered
- 79 Manufactured

Defined by our industry's finest materials, our **CREATIVE COLLECTIONS** have been expertly curated into four compelling series: *Architectural, Designer, Engineered, and Manufactured*. Each collection consists of our local markets' most demanded and highest-trending products. Although our origins and continued passion are rooted in natural stone, our expertise and industry awareness drive us to offer companion collections so the material inspires your vision and your landscape is limitless.

CREATIVE  
COLLECTIONS

## CREATIVE COLLECTIONS

# Manufactured

Our **MANUFACTURED** collection offers the largest selection of materials, making it easy to consider and include many basic design principles like contrast, proportion, repetition, and pattern, among others. This collection offers options to fit any landscape parameters, design style or preference. Sizing, textures, colours, and a variety of uniquely shaped paving and wall stones provide a creative platform with limitless design opportunities.

# Veneer

## BRANDS

- 110 Masonal
- 112 Ontario
- 115 Erth
- 116 Eldorado
- 118 Hebron
- 121 Canyon

The texture and interest of natural stone are beautifully crafted into a lighter-weight brick, allowing for a wide range of capabilities. This great alternative to full-bed depth stone can save time and money on installation costs and materials. With endless opportunities, Veneer is a versatile option for indoor and outdoor projects like feature walls in kitchens or bathrooms, a fireplace or bar wall, and several outdoor spaces like cabanas and sheds, or water and fire features.

- 124 Soil
- 127 Mulch
- 128 Decorative Stone
- 130 Synthetic Elements

A little variety goes a long way in landscape appeal. Including a fresh layer of mulch and decorative stone to a beautifully manicured lawn can add interest, define features, and soften transitions. Mulch is perfect for covering large spaces and hindering the growth of weeds. Decorative stones are great for lining hardscaping elements like walkways and patios. And ornate pebbles are great for special features like fountains and waterfalls. These elements are an integral part to creating your outdoor retreat.

# Soil

## Garden Builder

Rich composted organics permit positive filtration of water and air, allowing plants to thrive.

→ Use for establishing new gardens, filling planters. Great for vegetable gardens!

## GRO-MAX®

Premium soil with high moisture retention, good drainage, blend of organic materials.

→ Blend into existing gardens to reintroduce nutrients for long-lasting results.

## Top Dress/Divot Mix

Organic leaf compost and sand mixture optimizes drainage, seed germination and establishment.

→ Spread a thin layer  $\frac{1}{4}$ – $\frac{1}{2}$  inch over your existing lawn to improve drainage, dethatch or when over-seeding.

## Top Soil

A mixture of sand, silt, clay, and broken down organic matter.

→ Use for leveling uneven areas and holes on lawns, sodding and general planting.

Baked clay, crushed and screened | 40 lb bags

**White Dolomite**

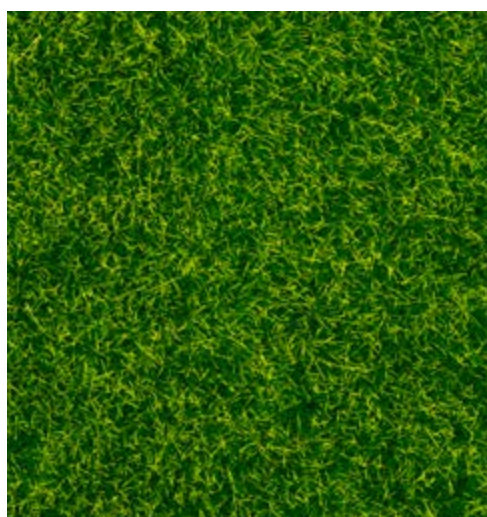

Classic accent | Bulk / 40 lb bags

# Synthetic Elements

## Golf Turf

Master your short game your own personal putting green. Mimics natural putting surface.

## Synthetic Turf

No maintenance, perfect grass year-round

## Living Walls

No-fuss, life-like greenery

## 360 courts

Basketball, tennis, pickleball, soccer

# Elements

## ELEMENTS

- 134 Light
- 138 Fire
- 140 Water
- 143 Accents

Landscape design should include all the elements and entice all the senses; the crackle of a fire, the movement of running water, and elegant and inviting lighting. Whether its a modest fire bowl or a luxury built-in, incorporating fire in your design allows family and friends to gather and relax. Water features promote peace and tranquility, adding fluidity and life to the more structured lines often created in hardscaping. Beautifully illuminated patios and pathways create an inviting atmosphere and accentuate the best features of your landscape throughout all light levels. These elements are an integral part to creating your outdoor retreat.

# Light

## *inviting light*

Three types of lighting contribute to a beautifully lit space: ambient for sight, accent for aesthetic allure, and scenic to draw attention or highlight special features. Form and function go hand in hand when designing your lighting scheme; a poorly lit pathway can easily become unwelcoming or unsafe, and a beautifully lit feature easily becomes artistry.

*Landscape lighting is both for beauty and function — it's an artform.*

### **Accent**

These are perfect if you have a feature you want to highlight, like the exterior walls of your home, hardscape features or trees. Uplighting is just that, a light shining up which creates focus and draws attention.

### **In-Ground**

Enrich your landscape. In-ground lighting can contribute to the overall beauty and function of your landscape; highlighting subtle curves and natural features while increasing safety and security with proper illumination.

### **Path and Spread**

Illuminate your sidewalks, pathways, entryways and patios to provide essential visibility. These shouldn't be a continuous light source but rather provide pools of illumination from one step to another, creating an inviting pathway.

## Hardscape

What stands out in the day should also stand out at night. Features like rock gardens, grottos, kitchens, or retaining walls should be included when considering lighting as they add interest and texture to the space.

Accent/Hardscape

Uplighting on trees

Path and Spread

Hardscape lights

### **Moon Lighting**

Lights placed above feature areas soften the overall look to feel more natural and is called moonlighting because of the shadows and natural glow it creates.

### **Up Lighting**

A light shining up that draws your attention and creates focus. Perfect for a feature you want to highlight, like the exterior walls of your home, hardscapes features or trees.

### **Deck and Patio**

The light required is often determined by the function of the space. Social spaces like decks and patios should be properly lit for safety and proper function.

*Ambient light is for sight, accent is for allure, and scenic is to draw attention.*

Deck and Patio

### **Incorporate Tech**

*Integrated LED lights* are highly engineered and sealed from the elements, which means they provide many years of reliable service and may be the better choice over drop-in lighting.

#### *Smart Control*

Digitally control your landscape lights with your smartphone or tablet. It's as easy as plugging in a control timer to your transformer, downloading the app, and hitting on.

# Fire

*gather 'round*

## Natural Gas & Propane

Add warmth and invitation to your outdoor living space. Natural gas and propane fire pits offer the ease of a perfect flame within seconds. The main difference between the two is installation and maintenance. Natural gas is connected to your home's gas pipeline and is a permanent fixture, which requires a professional for safe installation. Once installed, maintenance is relatively low. Another advantage to natural gas is the constant source of fuel often offers a larger flame, emitting more heat. Propane units give the flexibility of being portable, which often means the installation is easy. However, tanks will need to be refilled. Whatever the selection, adding a fire unit to your landscape will make it the place to be.

## Wood Burning

The crackle and flicker, the satisfaction of being built from scratch, the smell of fire that lingers on your clothes; it's a multi-sensory experience. Alongside our natural gas and propane units, we offer wood-burning units for the more traditional people and space.

CIM Fire boulder

## Custom

Build your own custom fireplace and create a unique atmosphere to entertain or relax in.

### Brass Burner Units

Customize your fire feature with the best-performing burners in the industry. Made from brass and aluminum pans these burner units will last a lifetime. Shapes and sizes vary and can be custom-built.

### Ready-to-Finish Kits

Aluminum frames are covered with a concrete board, ready to be easily and quickly completed with your choice of finishing materials.

### Finishing Touches

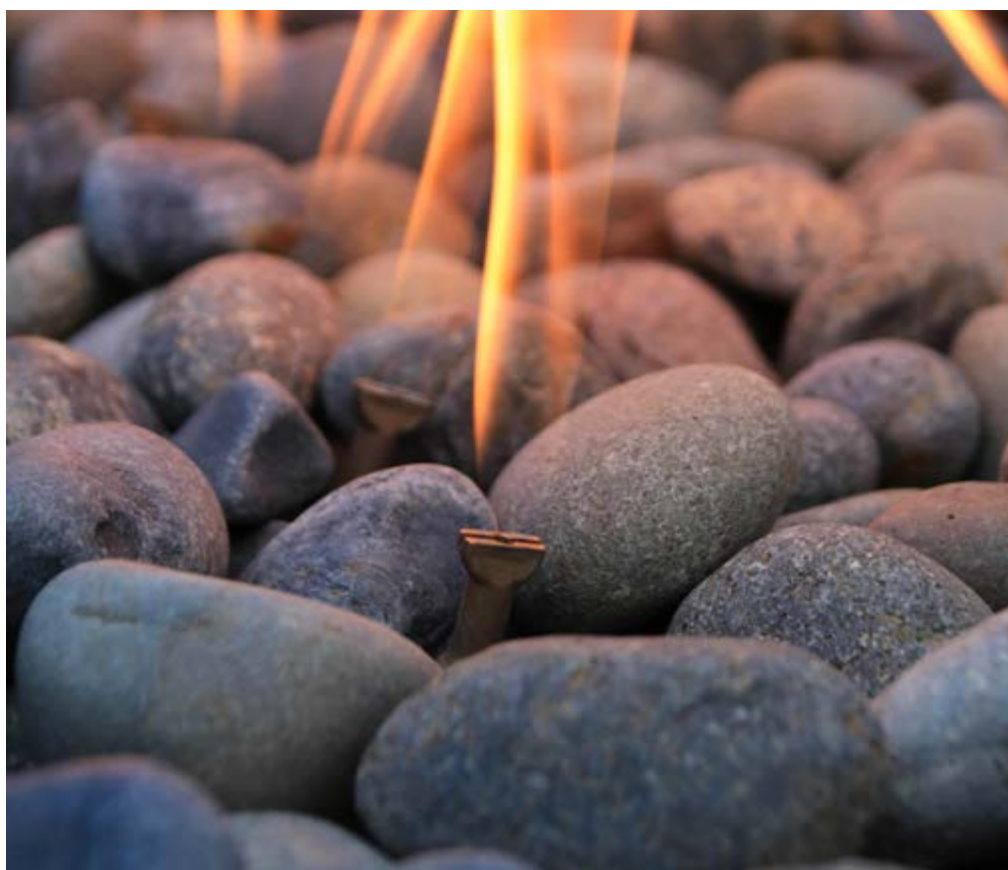

Add texture and interest to your fire feature with a ceramic log set, lava rock, polished stones or fire glass.

*The crackle  
of a fire, the  
warmth — it's  
multisensory.*

Modern, industry leading light-weight concrete fire units. [www.dekko.ca](http://www.dekko.ca)

### Paloform

Twenty years of refinement, hand-crafted to perfection. [www.paloform.com](http://www.paloform.com)

### Warming Trends

Superior fire feature systems with cutting edge technology. [www.warming-trends.com](http://www.warming-trends.com)

# Water

## *create calm*

Running water soothes the senses, adds texture and interest, and can block out the noise from traffic or neighbours. There are many ways to incorporate water features into your yard, whether space is limited or you've got ground to cover.

### **Waterfalls and Spillways**

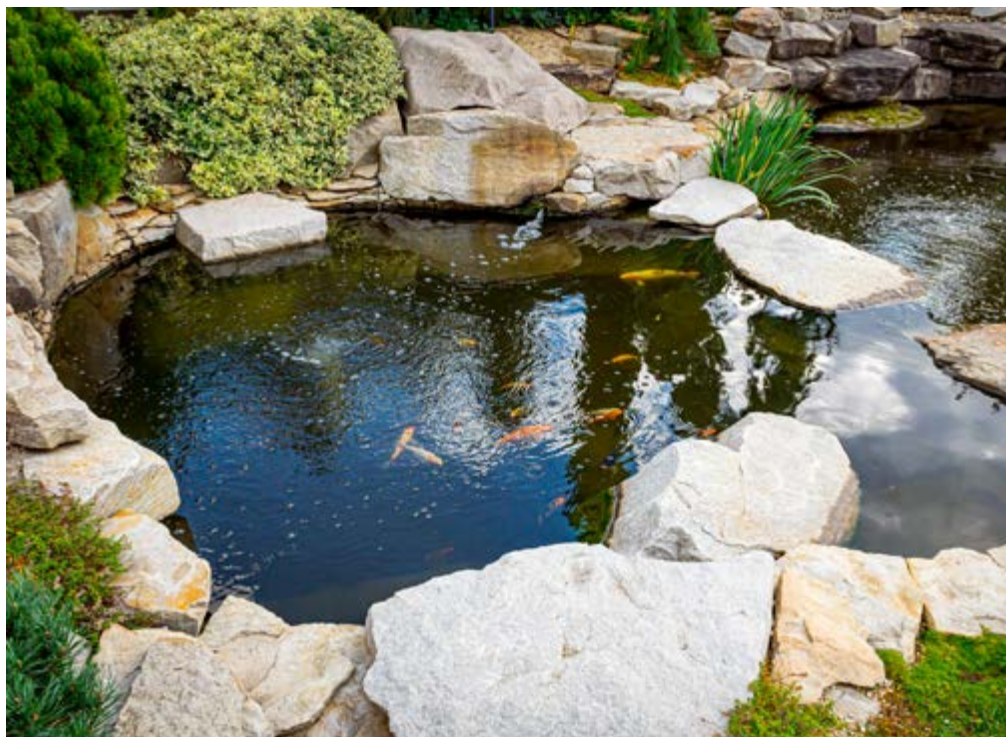

Often energy efficient, waterfalls are low maintenance and can attract a variety of wildlife. You can build your waterfall to be soft and serene or to be grand with height and lots of movement. Spillways are often a built-in feature used to create a waterfall effect, like in pools or wall features. They create a more modern look due to their clean lines.

### **Water Gardens**

A water garden can open the door for new and exciting foliage, the inclusion of fish like Koi, and attracting other wildlife. Once built, they require little maintenance and can be one of the most alluring features your landscape can offer.

### **Fountains**

When space is limited, a fountain is a perfect way to incorporate running water without taking up too much real estate. They're also a great way to add interest and beauty to your backyard, like a piece of art for your garden.

Water Garden

Spillway

Cascading waterfall

*Water features can add texture and interest or soften and soothe a landscape.*

### **Build Your Own**

Many water features can be built with a little creativity, basic plumbing skills, and the right materials:

- Liners and tubing
- Pumps and filters
- Spillways, spitters, and sprays
- Lighting, accents, and accessories
- Pond kits
- Pond treatments

For materials and expert advice, we're here.

CastART

## Accents

Privacy screens

### *the details*

#### **Art for the Garden**

Garden accents offer a finished look to your landscape. You can mark the entrance of a garden with an iron gate, offer a seat to reflect or contemplate, or add a familiar face for comfort or interest. More than an after-thought, garden accents can shape and finish a space and affect the overall feeling and atmosphere of your landscape.

#### **Castart, Benches, Screens**

Original designs and pieces of art for your garden, our castart collection is innovative to the concrete casting industry. Each piece is hand sculpted by artisans specializing in creativity and quality-driven concrete products. Pieces are manufactured from a proprietary blend of concrete with unique weather-resistant finishes applied.

# CREATIVE Brokering

## OFFERINGS

- Armour stone
- Guillotined armour stone
- Cubicle armour stone
- Custom cut armour stone
- Flagstone and oversized flagstone
- Moss rock, Granite and Limestone boulders
- Interlocking pavers and wallstone
- Mulch
- Salt

 creativebrokering

 CLDbrokering

Our dedicated brokering department is focused on acquiring the industry's finest limestone and related landscape materials.

Our extensive partnership with quarries, limestone producers, and the hauling industry allows us to source and coordinate shipments with reduced timelines. Our annual purchasing volume gives us prioritized access to premium-grade armour stone and guillotined armour stone produced by the best quarries.

## CREATIVE Salt

### OFFERING

- Provincial distribution of bulk and bagged salt
- Salt pick up locations
- Rock salt, ice melter, sand and salt blends
- Snow relocation services
- Full loads with reduced pricing
- EcoSalt de-icers

Our winter salt collection consists of industry-leading essentials for property snow and ice management. We inventory the volumes required to satisfy standard winter weather conditions, as well as during severe snow and ice events.

All products are available during regular operating hours, and our overnight service offers flexibility to customers who require material during snow events.
